

KEY TRACKER®

PRODUCT OPTIONS

Because we are constantly expanding and improving our product range, it is impossible to list all of the sizes and details here. However below are some of the options available:

RENTAL AVAILABLE

No fixed term, No penalties - just the flexibility to ensure **KEYTRACKER®** works for you!

SINGLE UNITS

These units have pre-drilled holes for fixing direct to the wall or within a housing.

BOARDS

Please see attached sheet for various sizes, all have stainless steel frame, containing pre-moulded ABS plastic modular tracks.

CABINETS

Constructed from 2mm sheet steel with a 2mm reinforced door as standard. Top and bottom shute bolts for multi-point locking. Powder coated for durability. Fitted internally with **KEYTRACKER®** support channels as is the left or right self closing, hinged door with push button digital lock as standard.

SAFES

3mm steel carcass, 6mm thick steel door, no external hinges, La Garde 3900 series combination lock with three way locking and key override. Needs to be bolted to a solid wall and pedestal mounted.

MISSING AGAIN?

the solution...

KEY TRACKER®

the secure key to efficiency

Secure Key Management

KEY TRACKER®

- **SAVE TIME**
- **QUICKLY IDENTIFY WHO HAS WHICH KEY**
- **KEEP KEYS SECURE**

The KEYTRACKER® system is the simplest and most cost effective system currently available for keeping track of where keys are and who is using them.

This means that your operation saves time, money and minimises frustration.

KEYTRACKER® systems range from single units, 5 key capacity (below). Then in multiples of these up to a maximum of 300 keys in either self closing cabinet or safe (right). Ideal for keys needing to be controlled by Car Dealers, Estate Agents, Police Forces and hospitals to name but a few.

The Benefits are simple...

SAVES TIME...

- No more lost keys!
- Only authorised staff have access to the board
- Organised layout - all keys in one place

SECURITY...

- Ensuring you always know who has which set of keys
- Eliminates opportunist theft
- Self-closing security cabinet or high security safe (optional)
- Rugged construction deters vandalism

PRODUCT...

- Modular system with total flexibility to easily expand with your business

You'll wonder how you ever managed without KEYTRACKER®!

COLOUR CODED IDENTIFICATION SYSTEM

- Keys are secured to a numbered peg with a secure key-ring, the peg is then locked into the board
- Keys can only be released from the board with a coloured user peg. Each employee has their own coloured and numbered release peg/s listed on a quick reference sheet by the system (example to the right)
- User peg locked on board will identify exactly who has taken the keys

No.	COLOUR	DEPARTMENT	NAME
01	GREEN	SALES OFFICE	RICH
02	GREEN	SALES OFFICE	TONY
03	BLUE	SECURITY	IAN
04	YELLOW	CLEANER	NIKKI
05	GREY	ENGINEERING	CH...
06	GREY	ENGINEERING	CH...

Getting a key is as easy as 1,2,3

- 1 Insert your personal colour coded access peg...
- 2 twist to release the desired key...
- 3 remove key!
Access peg cannot be removed until key is returned.

No more rummaging around in piles of keys

The key you need is clear to see...
